This is the third edition of one of the breakthrough books in the field of library and information science. No other text before it, or since, has provided such relevant, timely, and practical techniques for online research. "Librarian's Guide to Online Searching, Third Edition" explores the fundamentals of online searching, including database structure, searching tips, and plenty of exercises and questions for practice. This guide includes representative databases covering social sciences, science and medicine, bibliographic, humanities, and numerical data. The revised and updated edition of this popular work introduces information on new interfaces, includes updated screenshots, and features a new emphasis and new material on scholarly databases that are freely available on the Internet.
